

Looking to create your own smart home? At Yale we have a huge range of products, which can help to make your home that little bit more convenient and give you peace of mind. Smart home technology is more than just safety, it's a lifestyle.

Here, we take a look at some of the smart products from Yale and how you can introduce smart technology into your home.

## *Be smart with a Smart Lock*

If you're after convenience, a smart lock can help make your life that little easier. No more searching for your keys, with a smart lock you can use your smartphone, key fob, or key card, putting you in control of your home security.

A Yale Smart Lock combines the very best of a mechanical lock, with innovative technology. If you have family, friends or even a dog walker visit when you're out, with a smart lock you can provide virtual keys, which can easily be added or removed – so there's no need to worry about who has the keys to your home.

We want to make sure everyone has the option to have a smart lock, so no matter what type of lock or style home you have, there's a smart lock for you. With sleek and stylish designs, our smart locks are ideal if you want to make sure your home has that all important kerb appeal.

## *Smart Storage Solutions*

It's always important to protect our personal belongings, keeping documents, valuables, medicines, parcels and much more, safe, and secure. And now it's easier than ever, with smart storage solutions.

From smart delivery boxes and smart safes to smart cabinet locks, you can choose the perfect smart storage solution for you. All controlled through your smartphone, from anywhere. You can rest-assured you're in control of the security of your personal belongings with Yale's Smart Storage range.

With handy cabinet locks, you can feel confident no little hands will be able to get into your medicine, alcohol or cleaning cabinets, keeping all your family safe. All Yale Smart Storage solutions have different benefits, but all provide convenience and security for you, your possessions and loved ones.

## Keep watch with Smart Security Cameras

With lifestyles getting busier, having a more convenient way to keep an eye on what's happening at home, is very beneficial. And smart security cameras can help you do just that.

Whether it's for the indoors or outdoors, Yale Smart Security cameras can be controlled through your smartphone, from anywhere. Letting you check who's at home, if your furry friend is sleeping on the sofa or if you have any unwanted visitors, giving you total peace of mind.

And, with two-way talk functionality, you can talk to those on the other side of your Yale camera – let the delivery driver where to leave your parcel, warn off any unwanted intruders or let your partner know you're on your way home.

Get peace of mind on the go with the Yale Smart Security Cameras.

This product ONLY available in selected countries. NOT available in Malaysia.

## Stay alert with Smart Alarms

Securing your home has never been so convenient. With a Yale Smart Alarm, you can control your home security, from anywhere.

Simply arm, disarm and respond to your home alarm, all through your smartphone. And with the possibility to expand the alarm with additional accessories from Yale, there are many ways your Yale Smart Alarm can keep your home safe and secure and give you peace of mind.

To give you even more convenience, the Yale Smart Alarms integrate seamlessly with other products in the Yale smart home range, but also with other brands. When connected with your smart lock, the alarm can automatically be disarmed when the lock is unlocked or connect to your voice assistant and control your alarm simply using your voice.

## Be in control with Yale Access

As our day to day lives get busier, it's important to be able to monitor and access your home security system from anywhere.

Providing you with remote and additional functionalities, the Yale Access can bring all your smart devices together – it's never been so easy to be in control of your home security.

Check the status of your smart lock, get notified if your door is locked or not and view exactly who has opened your door and when, all through the Access App. Designed to give you extra peace of mind, the Access App lets you keep a check on your home security from anywhere, at any time.
