# Yale

Make it smart.
Yale YDM4109A
Smart Lock

The Yale YDM4109A smart lock comes with a voice guide feature that provides the status of the lock and details on how to personalise each feature and mode to suit the convenience of the user. In using a smart lock such as the YDM4109A, you can cast a wider security net to safeguard your home against burglary or intruders. No longer do you need to worry about forgetting to lock the door before you leaving for work or vacation. YDM4109A is implemented with DoorSense™ technology that lets you know if the door is closed or left ajar. And if the door has been left ajar, the auto locking system, will automatically lock the door for you within a 5-second timeframe.
